STANDARD. ISO. 19840. First edition. 11/01/2004. Paints and varnishes. Protection of steel structures against corrosion by protective paint systems. Measurement ... at least at the same temperature, but not ... temperature. - Moscow, ISO, 2004. - 42 p. ISO 19840 specifies methods for quality control of paint applied to steel structures when used as load-bearing parts. In order to prevent the occurrence of defects in such structures, it is necessary to know the temperature of the paint, as well as the temperature of the steel on which the paint will be applied.
